Soft Skills

- Teamwork
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

Tech Skills

- C++/ C++11
- C
- GTK
- sqlite3
- Unix/ Linux
- STL
- Git/ GitHub
- Qt/Qml
- Socket
- Programming
- Data Structure
- Multithreading
- Shell script
- Linux/ Red Hat/ Ubuntu/ Debian

Languages

- English (Fluent)
- Hindi (Fluent)
- Marathi (Fluent)

Certification

- NPTEL C++ programming, Data structure and algorithm
- NPTEL CSS cryptography, Network Security

Profile

Job Role -
Design, enhance and maintain deb/rpm build of antivirus software products. Add an additional feature module in it for the Linux, Red Hat, Ubuntu, Debian, Fedora, Linux Mint operating systems in C and C++ programming language.

Education

B.E. Bachelor of Computer Engineering Jul 2016 - Oct 2020

Rizvi College of Engineering | MUMBAI UNIVERSITY
GPA: 8.87/10

HSC Jun 2016
Sathaye College
Percentage: 76.96%

SSC Jun 2014
Rameshwar Vidya Mandir
Percentage: 93.00%

Work Experience

Programmer, Back-Frontend C++/C/Linux/Qt Feb 2025 - June 2026
Microworld Software Services Pvt Ltd (eScan)

- File Integrity Monitor -

Monitors and analyzes the integrity of critical assets, including file systems, directories, databases, network devices and operating system OS components for signs of tampering/corruption.
concept use - Baseline,md5sum,STL Map

- Gmail Domain Blocker -

Developed Gmail domain blocker to filter and block mails based on user sender domains.
concept use - Linux,File Handling using C++,Rust Language.

- Application blocker -

A centralized point for handling the screen of the Application controller to manage and optimize client computer.
concept use - STL list, Configuration File reading,Unix

- Update GUI

Using Qt/QML frameworks to have live function data.

Trainee programmer, Backend C++/c/linux
Microworld Software Services Pvt Ltd (eScan) Aug 2021 - Jan 2024

- Real-time scanner -

Continuous antivirus scanner for monitoring the file system in real-time to detect and prevent the spread of virus, worm and Trojan.
