

Pre-examination Training for SC/ST/OBC Candidates under Regular
Recruitment Drive for Junior Associates
Reasoning Ability & Computer Aptitude - Set 5

Six points: J, K, L, M, N, O

K is 10 km north of J

L is 8 km east of K

M is 9 km south of L

N is 12 km west of M

O is 7 km north of N

1. Point J is in which direction with respect to O?
a) North-East
b) South-East
c) North-West
d) South-West
e) None
2. Point O is in which direction with respect to K?
a) West
b) North-West
c) East
d) South-West
e) South-East
3. . In which direction is M with respect to J?
a) North
b) North-East
c) East
d) South-East
e) South
4. In which direction is L with respect to J?
a) North-East
b) East
c) West
d) North-West
e) South-East
5. L is in which direction with respect to O?
a) South-West
b) North-East
c) East
d) North-West
e) South

Directions: Follow the instructions for each question/puzzle. All persons/places/things are different unless specified.

Eight people: N, O, P, Q, R, S, T, U; each has a different rank: CEO, COO, CFO, GM, AGM, Manager, Clerk, Intern (CEO is the most senior and so on).

N is junior to R.

Five people are between S and T in designation.

AGM is senior to U.

Only three people are between O and T.

U is immediately junior to P.

More than three are senior to U.

Q is not the Intern. S is senior to P.

R is junior to exactly one person.

6. Who is the Manager?
 - a) N
 - b) S
 - c) P
 - d) U**
 - e) T
7. Who is just senior to Clerk?
 - a) U**
 - b) Q
 - c) R
 - d) S
 - e) T
8. Which designation does R hold?
 - a) CEO
 - b) COO**
 - c) CFO
 - d) Clerk
 - e) GM
9. How many designations are below O?
 - a) None
 - b) Two
 - c) Five**
 - d) Three
 - e) One
10. Who is the least senior?
 - a) Q
 - b) N**
 - c) P
 - d) U
 - e) T

Solution:

CEO	S
COO	R
CFO	O
GM	Q
AGM	P
Manager	U
Clerk	T
Intern	N

11. Statements: a. All bulbs are radios.

b. All radios are fans.

c. No fans are tables.

Conclusions: I. Some fans are bulbs

II. No table is a bulb.

III. Some radios are bulbs.

IV. Some tables are radios.

I, II and III follow

II, III and IV follow

Only I and II follow

Only I and III follow

II and IV follow

Solution: All bulbs are radios + All radios are fans = All bulbs are fans [A + A = A] which gives Some fans are bulbs [on conversion]. III follows on converting the first statement. Also, All bulbs are fans + No fans are table = No bulbs are tables, which gives No tables are bulbs on conversion.

12. Statements: a. Some books are bulbs.

b. All biscuits are pens.

c. No bulb is a biscuit.

Conclusions: I. Some books are not biscuits.

II. Some bulbs are not pens.

III. Some books are not pens.

IV. Some pens are not bulbs.

I and IV follow

II and IV follow

I and III follow

II and IV follow

I, II and IV follow

Solution: (a) +(c) gives I. (c) + (b) gives IV. [E + A = O reversed]. No other conclusion is possible.

13. Statements: a. All books are notes.

b. Some notes are watches.

c. No watch is a pencil.

Conclusions: I. Some watches are books.

II. Some notes are pencils

III. No watch is a book.

IV. Some notes are not pencils.

I and either II or IV follow

I, III and IV follow

I, II and III follow

Only I and IV follow

Either I or III and IV follow

Solution: I and III have a conclusion between 'watches' and 'books'. For a conclusion between watches and books our relevant statements are (a) and (b). Now, (a) + (b) = A + I = No conclusion. But, I and III make an I-E pair, which is complementary. Hence, either of them follows. Also, (b) + (c) = I + E = O = Conclusion IV.

14. Statements: a. Some blondes are Indians.
 b. Some Asians are blondes.
 c. No Asian is a brunette
 Conclusions: I. Some Indians are Asians.
 II. Some Asians are blondes.
 III. No Asian is a brunette
 I and IV follow
 II and III follow
 Only III follows
Only IV follows
 Either II or IV and III follow
Solution: (b) can be converted to "Some blondes are Asians". This plus
 (c) gives conclusion IV [I + E = O]. No other conclusion is possible.
- Given series: G 6 B @ U 5 E % 7 F R 8 * S P # M 9 X V \$ L Z W ! Q
15. Which element is 9th to the left of 13th from the left end?
 a) @
 b) X
 c) U
 d) F
 e) 8
16. How many vowels are there immediately preceded by a symbol and followed by a consonant?
 a) Zero
 b) One
 c) Two
 d) Three
 e) Four
17. If all vowels are dropped, which element is 8th from the left?
 a) F
 b) %
 c) 8
 d) *
 e) #
18. Four of these five are similar in pattern, which is the odd one?
 a) B@U
 b) 8*S
 c) #M9
 d) ZXW
 e) \$LZ
19. How many such numbers are immediately preceded by a consonant and followed by a symbol?
 a) None
 b) Two
 c) One
 d) Three
 e) Four
20. If 'F' and 'V' are interchanged and all symbols are removed, which letter is 5th from the right?
 a) X

- b) U
- c) F**
- d) M
- e) B

21. How many letters are there in the word "POTENTIAL" that have as many letters between them as in the alphabetical series?

- a) One
- b) Two**
- c) Three
- d) Four
- e) Five

Solution: P O T E N T I A L

22. If every 2nd element is dropped from left, which is the new 7th from the right?

- a) Q
- b) ***
- c) !
- d) #
- e) F

Six students: J, K, L, M, N, O, ranked by scores.
M scores more than O.

Only one scores more than L.

J scores less than K but more than N.

K does not score the highest.

O isn't lowest.

People scoring more than O is equal to the people scoring less than K.

23. Who is at the top?

- a) K
- b) L
- c) M**
- d) J
- e) N

24. Who scores just less than J?

- a) O
- b) N**
- c) K
- d) M
- e) L

25. Who ranks third from the bottom?

- a) M
- b) K
- c) J
- d) N
- e) O**

26. Who scores just less than L?

- a) **K**
- b) J
- c) O
- d) N
- e) M

Eight friends A–H are sitting around a circular table, all facing centre.
D is second to the right of A.

F sits third to left of C who sits opposite to H.

B is not immediate neighbor of D.

E is not next to A or F.

H sits to the immediate right of G.

27. Who sits third to the left of E?

- a) B
- b) F
- c) C
- d) **D**
- e) G

28. Who is immediate neighbor of both A and F?

- a) D
- b) **B**
- c) C
- d) E
- e) G

29. Who sits opposite D?

- a) E
- b) **F**
- c) H
- d) G
- e) A

30. If C and G interchange positions, who will be to the immediate left of C?

- a) A
- b) F
- c) **E**
- d) B
- e) D

31. How many persons are between H and B if counted from left of H?

- a) One
- b) Four
- c) Two
- d) **Three**
- e) Five

32. Who is fourth to the right of F?

- a) G
- b) **D**
- c) B

- d) A
e) H
'big red blue car' – ik zo pa ta
'blue ball red sun' – zo mi ta sa
'car is fast blue' – pa ki zo la
'red fast sun ball' – ta la sa mi
33. What is the code for 'sun'?
- a) mi
b) sa
c) ta
d) ki
e) zo
34. What is the code for 'is'?
- a) pa
b) ki
c) la
d) ta
e) mi
35. What is a valid code for 'red car'?
- a) ta pa**
b) zo la
c) ta ki
d) ta sa
e) pa sa
- Solution:** Solving the equation we get,
red sun = ta sa
red = ta
sun = ta
blue car = pa zo
blue = zo
car = pa
fast = la
is = ki

Six points P, Q, R, S, T, U:

Q is 10 km north of P,

R is 6 km east of Q,

S is 8 km south of R,

T is 12 km west of S,

U is 5 km north of T.

36. P is in which direction with respect to U?
- a) East
b) South-East
c) North-East
d) West
e) South-West

37. In which direction is R from U?
a) Northeast
b) East
c) Southeast
d) North
e) Southwest
38. S is in which direction with respect to Q?
a) South
b) East
c) Southeast
d) West
e) Northwest
39. Q is in which direction with respect to T?
a) Northeast
b) East
c) Southeast
d) North
e) Southwest
40. U is in which direction with respect to R?
a) North
b) Southwest
c) Northwest
d) Southwest
e) South

Directions: Read each set of instructions and information carefully, and answer the questions that follow.

Eight people—A, B, C, D, E, F, G, H—each have a different banking role: Branch Manager, Deputy Manager, Senior Officer, Officer, Assistant Officer, Clerk, Cashier, and Messenger, in descending order of seniority. H is junior to F.

Between D and G in seniority, there are exactly four people.

Senior Officer is senior to G.

There are two positions between B and H.

C is immediately junior to F.

At least two people are senior to C.

D is senior to E, who is senior to A.

H is senior to at least three others.

B is not the Messenger.

41. Who is the Senior Officer?
a) D
b) C
c) G

- d) F
e) E
42. How many designations are between F and E?
a) One
b) Three
c) Four
d) Two
e) None of these
43. Who is immediately junior to the Deputy Manager?
a) C
b) G
c) D
d) H
e) F
44. What is G's designation?
a) Cashier
b) Officer
c) Clerk
d) Messenger
e) Assistant Officer
45. How many designations are below D?
a) None
b) Two
c) Seven
d) Three
e) One
46. Who is the clerk?
a) E
b) F
c) A
d) D
e) B
47. How many people are senior to C?
a) Four
b) One
c) Two
d) Three
e) None

Solution:

Branch Manager	D
Deputy Manager	F
Senior Officer	C
Officer	H
Assistant Officer	E
Clerk	G
Cashier	B

Messenger	A
-----------	---

48. If it is possible to make a meaningful word with the third, sixth, seventh and eighth letters of the word "REGENERATION" which of the following will be the second letter from the right end of that newly formed word? If more than one such word can be made, give M as the answer and if no such word can be made, give Y as the answer?

a) **M** b) E c) Y d) A e) R

Solution: The possible words are: Rage, Gear

49. Six persons sit in a line. A is to the right of B, C is to the left of D, E is to the left of A but right of D. If F is at the extreme end, who is sitting to the immediate left of A?

- a) B
b) D
c) **E**
d) F
e) None

Solution: Arranging stepwise → order: F B C D E A.

50. A person walks 10 m east, then 10 m north, then 10 m west, then 10 m south. Where is he from the starting point?

- a) 10 m east
b) **At the starting point**
c) 10 m north-east
d) 20 m south
e) None
