REASONING — QUICK RULES (Glance once, remember forever)

Syllogism Statement	Valid Conclusion
All A=B + All B=C	All A=C ✓ Some C=A ✓
Some A=B + All B=C	Some A=C ✓ NOT All A=C ✗
No A=B + All C=A	No C=B ✓
Some A=B + No B=C	Some A ≠ C ✓
All A=B (convert)	Some B=A ✓ NOT All B=A ✗
Neither follows but complementary	Either I or II ✓
Inequality Chain	Result
A>B>C	=> A>C ✓

$A \geq B > C$	$\Rightarrow A > C \checkmark$
$A \geq B \geq C$	$\Rightarrow A \geq C \checkmark$
$A > B$ and $C > B$	A vs C = Cannot determine $\times$
$A > B = C$	$\Rightarrow A > C \checkmark$

Direction	Result
N then turn right	Facing East
N then turn left	Facing West
S then turn right	Facing West
S then turn left	Facing East
Clockwise 90° from N	East
Circular 6-person opposite	3 seats apart

Coding-Decoding	Method
+2 each letter: BANK $\rightarrow$ DCPM	Find shift, apply same to all
Sum of positions: RED=27	R=18, E=5, D=4 = 27
Sentence code: find common word	Same word = same code
Reverse coding: MANGO $\rightarrow$ OGNAM	Word reversed

Key Formulas:

Formula	Expression	Formula	Expression
Profit %	$(SP-CP)/CP \times 100$	SI	$PRT/100$
SP (profit)	$CP \times (100+P\%)/100$	CI	$P[(1+R/100)^T - 1]$
CI-SI (2yr)	$P \times (R/100)^2$	Average speed	$2ab/(a+b)$
Train+platform	$(L1+L2)/\text{time}$	Stream speed	$(\text{Down-Up})/2$
A+B together	$ab/(a+b)$ days	% change	$(\text{New-Old})/\text{Old} \times 100$
Doubling (SI)	$100/R$ years	Tripling (SI)	$200/R$ years

- x11 trick: $54 \times 11 = 5[(5+4)]4 = 594$. If middle ≥ 10 , carry: $67 \times 11 = 6[(6+7)]7 = 737$
- Ends in 5: $35^2 = 3 \times 4$ append 25 = 1225. $75^2 = 7 \times 8$ append 25 = 5625
- Divide by 5: multiply by 2 then /10. $480 \div 5 = 960 \div 10 = 96$
- Divide by 25: multiply by 4 then /100. $1750 \div 25 = 7000 \div 100 = 70$
- 15% of x: find 10% + half of 10%. 15% of 840 = $84 + 42 = 126$
- BODMAS order: B-O-D-M-A-S. Multiplication/Division left-to-right BEFORE Addition/Subtraction

ENGLISH — 8 GRAMMAR RULES THAT COVER 90% OF ERROR DETECTION

Rule	How to apply
1. Subject-Verb	Each/Every/Either/Neither + SINGULAR verb. "Each of the students HAS" (not have) "The number of errors IS" (not are)
2. Since vs For	SINCE = specific point in time: "since 2020" FOR = duration: "for 5 years"
3. Despite	NEVER "despite of" — always just "despite his efforts"
4. Looking forward to	MUST be followed by gerund (verb+ing): "looking forward to MEETING" (not "to meet")
5. Neither...Nor	Verb agrees with NEARER subject: "Neither he nor his friends ARE coming" (friends is nearer)
6. Had + past participle	"The bank had FROZEN the account" (not "had froze")
7. Hardly/Scarcely	HARDLY...WHEN (not than). SCARCELY...WHEN "Hardly had I entered WHEN the phone rang"
8. One of the...who	Takes PLURAL verb: "one of the best books that HAVE been written"

- Find OPENER: No connector word. Introduces topic for the first time. No pronoun reference at start.
- Find CLOSER: Has "thus", "therefore", "in summary", "hence", "so", "as a result".
- Link by PRONOUNS: If sentence has "this", "these", "such" — previous sentence must define what it refers to.
- NEVER opener: sentences starting with "but", "however", "although", "despite", "therefore".
